

Teamship is work-based learning with real stakes. Students solve urgent problems for real businesses during the school day, building durable skills.

We train the teachers. We manage the business partnerships. Students get authentic, career-connected experience without ever leaving the classroom.

Once you know approximately how many students you'd like to do Teamship and how many teachers will be trained, we can help create your quote.

How to Estimate Student Experiences

- **Definition:** One student experience = one student completing one Teamship cycle. A single student in two cycles counts as two experiences.
- **Coverage period:** Student experience fee covers experiences within a single school year (July 1–June 30).
- **Flexible scaling:** Your floor is a minimum, not a cap – add experiences anytime during the year. Cross into the next tier's floor, and all experiences automatically re-price at that lower rate.

Program Price	1 Teamship Student Experience		2 Teacher Training - Teamship Coaching Institute
